

EXXASENS

REVOLUTION

NEW ALBUM RELEASE

19.11.19

EXXASENS, project founded in 2008 by Jordi Ruiz and consolidated as a band since 2011, it could be considered an instrumental rock or post-rock band, although style is close to progressive, post-metal and even cosmic-rock or shoegaze.

The EXXASENS sound could be defined as a multistage mix, where guitars with long echoes, spatial synthesizers and strong and well-defined rhythmic bases predominate. In it, influences are recognized ranging from Pink Floyd, U2 or The Cure through instrumental bands such as Explosions in the Sky or Mogwai.

Since consolidation as a band in 2011, he has performed numerous concerts, sharing the stage with important bands within the genre such as Toundra (Spain), Maybeshewill (UK), 65daysofstatic (UK), Tides of Nebula (Poland), Sleepmakeswaves (Australia), Alright the Captain (UK), I'm waiting for your last summer (Russia) or The best Pessimist (Ukraine).

The powerful live show supported by a brilliant multimedia part that enriches each show even more, has allowed it to be part of some of the most prestigious European festivals, Astral Fest (Moscow, St. Petersburg), AMFest (Barcelona, Spain), Dunk! festival (Belgium), Festival Cruilla (Barcelona), Primavera Sound (Barcelona), Bilbao BBK Live (Bilbao), ProgPower (Baarlo NL), Arctangent (Bristol, UK), as well as touring Europe and UK on a couple of times.

In November 2019 and after 4 years of inactivity, it is presented with a new proposal called REVOLUTION.

November 2019 is the date chosen to launch its sixth album, "REVOLUTION". It has been 4 years since the publication of his latest work, "BACK TO EARTH" being this a turn to the origins and a revolution in the incorporation of new elements to the proposal.

Recorded, mixed and produced entirely by Jordi Ruiz in the EXXA-STUDIOS (Teia), REVOLUTION is a long duration of almost an hour of footage with a total of 11 songs where we can find 5 entirely sung cuts, partially disassociating themselves from the instrumental label and opening the road to a new stylistic amalgam

A full-fledged REVOLUTION, in that EXXASENS was always a flag bearer of post rock in Spain.

This new album will be self-published after almost 8 years of relationship with the Barcelona label Aloud Music. The physical publication will be exclusively on vinyl although a digital edition with the entirely instrumental album will also be published.
